

RespectUs hires a Business Analyst

A 4-6 month internship to work as a Junior Business Analyst

The position to be filled at the latest 1 February 2022. Based in Luxembourg or working remotely. We work in an Agile process, with Sprints' pace and tasks clearly distributed between a Business analysts' team (3 persons) and a Developers' team (2 persons). Your role will be to support the Business Analysts in their daily missions.

What we need you for:

- Support with updating our Content Management System (CMS): brainstorm, create and nest components, fill them with content, and customize them to the needs of the platform also maintain the components and the content databases

- Help with the deployment of Project management tools to allow the team to reach the goals in terms of IT developments
- Take part to the drafting of our weekly newsletter dedicated to export control and compliance issues
- Participate actively in creating the test users' groups to test version 1.0 of the platform, and in collecting their feedbacks
- Other tasks to be determined depending on the intern's profile and assets (marketing, sales, etc.).
