# RespectUs takes part in the Luxembourg Space Mission to Dubai 24–30 October

RespectUs is proud to announce its participation in the Luxembourg Space Mission, which will happen during the International Astronautical Congress (IAC) in Dubai 24 – 30 October. This Official Mission will be led by Mr. Franz Fayot, Minister of the Economy of the Grand Duchy of Luxembourg.

Two of our team members will join – Patrick Goergen (CEO) and Lisa Kucher (Lead Legal/Business Analyst). Feel free to connect with us virtually before the event or during the conference itself – we will be happy to have a chat or meet!

The International Astronautical Congress (IAC) is the place and time of the year where all global space actors come together. The event attracts more than 6000 participants each year. Covering all space sectors and topics, it offers the latest information and developments in academia and industry, networking opportunities, contacts and potential partnerships. Each year, the IAC changes country, theme and local organizer, enabling more learning about, and the opportunity to be a part of, the world space scene.
