Russia / Ukraine sanctions by EU – Coordinated version now available

Faster than the EU institutions, the RespectUs document is updated as of 30 July 2022.

RespectUs has now published a 1.003 pages coordinated version of all EU Ukraine-related sanctions against Russia.

It includes the 7th sanctions package published on 21 July 2022 and subsequent modifications. It is updated as of 30 July 2022. Language version is English.

This is valuable as the coordinated version of all these texts are not yet published on Eur-Lex, the official database of EU documents.
